Created	March 2023	SCQF Level	SCQF 9	
Approved	July 2002	SCQF Points	60	
Amended	July 2023	ECTS Points	30	

#### **Aims of Module**

The aim of industrial experience is to provide the student with the opportunity to apply the subject specific skills, knowledge and understanding, as well as personal transferable skills, acquired on the course, to the real world environment of work.

# **Learning Outcomes for Module**

On completion of this module, students are expected to be able to:

- 1 Demonstrate planning and organisational skills.
- 2 Apply subject specific skills, knowledge and understanding acquired on the course to a workplace situation.
- 3 Demonstrate professional, interpersonal and communication skills to a workplace situation.
- 4 Discuss the function and structure of the organisation in which they are placed.
- 5 Critically reflect on the placement experience in relation to their emerging strengths and career ambitions.

#### **Indicative Module Content**

The precise nature and content of each placement will vary depending on the type of company or organisation, however the role and responsibilities to be undertaken by the student are expected to closely relate to their academic experience, skills and knowledge. A learning contract is drawn up by academic and company staff and the student in advance of the placement. This will outline the scope of the role, the likely range of work experience and expectations by the conclusion of the placement. Completed theoretical and practice-based project work should evidence an awareness and consideration of sustainable themes in a manner appropriate to the context of the discipline.

### **Module Delivery**

Delivery is by full time, on the placement activities which may include specific staff development training or workshops.
