### Prerequisites for Module

None.

The module emphasizes writing (and drawing and oral presentation to a lesser degree) as tools useful in understanding and describing the subject studied.

### Corequisite Modules

None.

### Indicative Student Workload

### Precluded Modules

None.

<i>Contact Hours</i>	Full Time
Assessments	5
Lectures	30
Tutorials/Seminars	15

### Aims of Module

To provide the student with an understanding and overview of the architectural and landscape design production of the principal periods of Western civilizations from Neoclassicism up to the 20th Century.

<i>Directed Study</i>	
Directed Study	50
<i>Private Study</i>	
Private Study	50

### Mode of Delivery

### Learning Outcomes for Module

Lectures in the architectural history, theory & social context of various civilizations from the Baroque up to

On completion of this module, students are expected to be able to:

1. Identify and describe a range of key ideas, periods, sites, buildings and designs in the evolution of Western Architecture and Landscape design from Neoclassicism up to the 20th Century, and evaluate their significance in relation to their cultural context.
2. Discuss in written academic format a chosen topic relating to the evolution of Western Architecture and Landscape Design from the Baroque period up to and including the 20th Century.

### **Indicative Module Content**

The module presents a historical survey of the main features of the various stages of architectural and landscape design production within the stream of Western Architecture from the advent of Neoclassicism, the Picturesque and the Enlightenment up to and including the Twentieth Century, with detailed examination of key and representative examples. Architectural History is

the present day introduce the broader picture. These are supplemented by tutorials and seminars intended to develop deeper understanding and self-directed learning.

### **Assessment Plan**

	Learning Outcomes Assessed
Component 1	1,2
Component 2	1,2

Component 2 - Written examination assesses students' understanding of, and ability to synthesise, the content of lecture series, tutorials and independent study assignments

Component 1 - Coursework assesses development and application of knowledge and principles acquired

### **Indicative Bibliography**

1. Moffett, Fazio, Wodehouse A World History of Architecture, Laurence King 2003.
2. Mark, R. (ed), Architectural Technology up to the Scientific Revolution, MIT Press, Cambridge, Ma. 1993.
3. Curtis, W. Modern Architecture since 1900 Phaidon Press, London 1995.

...monumental history is understood as a narrative into which several different strands are woven. The lecture course, therefore, introduces aspects of technology & construction techniques, stylistic traits and artistic background, functional aspects, social structures and relations, theory, etc., as and when relevant to the student's understanding of the 'story'.

4. Turner, T Garden History: Philosophy and design 2000BC ? 2000 AD, 2005.
5. Nuttgens, P., The Story of Architecture, Phaidon Press, London, 1997.

### **Additional Notes**

Additional bibliography presented in teaching plans and lectures.
