

MODULE DESCRIPTOR

Module Title

Professional Practice and Management

Reference	ACM005	Version	10
Created	March 2021	SCQF Level	SCQF 11
Approved	October 2002	SCQF Points	15
Amended	September 2021	ECTS Points	7.5

Aims of Module

To develop the knowledge, skill and maturity of students at part 2, which will enable them, on qualification, to carry out their professional duties responsibly and effectively.

Learning Outcomes for Module

On completion of this module, students are expected to be able to:

- 1 Develop knowledge and critical understanding of key aspects of professional practice and management relevant to the role of the Architect.
- 2 Apply knowledge, understanding and judgement relating to key aspects of professional practice and management in a specific project/scenario.
- 3 Undertake independent learning via the Personal Professional Development to learn skills and knowledge in theory and practice that will support your individual Part 2 learning goals

Indicative Module Content

The module will cover the legal, professional and statutory responsibilities of the architect; the Architects Registration Board; the architect in relation to the building industry; professional and contractual relationships; the RIBA Plan of Work; the principles of planning and building regulation legislation; procurement options for construction projects; building contracts; cost planning and cost control; architectural practice in the wider social context; Health and Safety legislation and the CDM Regulations; Copyright; Insurances and Professionalism and business ethics.

Module Delivery

The mode of delivery is by lecture and student centred workshops and seminars and independent reading.
