## MODULE DESCRIPTOR

### Module Title

Oil and Gas: Leadership and Decision Making

Reference	BSM221	Version	2
Created	August 2021	SCQF Level	SCQF 11
Approved	June 2020	SCQF Points	15
Amended	August 2021	ECTS Points	7.5

### Aims of Module

To provide managers with knowledge and understanding of key theories of leadership, and associated challenges. To enable them to act as change agents in the context of the international oil and gas industry. To equip them with the skills required to influence the behaviour of others. To enhance their awareness of decision making, group dynamics and team building processes.

### Learning Outcomes for Module

On completion of this module, students are expected to be able to:

- 1 Critically appraise key ideas in leadership theory, including notions of transformational leadership, transactional leadership, servant leadership and authentic leadership.
- 2 Demonstrate critical awareness of decision making in the context of the the international oil and gas industry
- 3 Evaluate leadership dynamics in the complex and and increasingly diverse international oil and gas environment.
- 4 Critically analyse a variety of communication dynamics in the context of team based and leadership practice.
- 5 Employ a range of approaches, techniques and tools to lead strategic decision making across diverse and geographically spread teams.

### Indicative Module Content

The nature of leadership; what good leaders do and don't do; controversies and debate in leadership studies; key dynamics of decision making, influencing and persuading others; group dynamics; team building issues; core communication processes in the context of the international oil and gas environment.

### Module Delivery

The module is delivered in taught mode by lectures, participation in a conference stream tailored to the oil and gas industry, interactive group work, case study tutorials, directed self study and a competitive, strategic business simulation.
