On-campus mode is delivered by lectures, interactive group work, case study tutorials and directed self-study.
Distance learning mode is delivered through self directed

Learning Outcomes for Module

On completion of this module, students are expected to be able to:

1. Recognise and explain the changes taking place within international business activities, including global communications, technology and movement of capital and labour across borders.
2. Evaluate the impact of these changes, including the pressure for conformity in national regulation, and growth within international organisations, such as the World Trade Organisation and the European Union.
3. Analyse the consequences of changing regulatory and cultural environments for business managers and identify how global managers deal with the changing environments.

Indicative Module Content

What is globalisation? Growth and cross border trade; international trade with LDCs; the role of international institutions (IMF, WTO, EU, other customs unions and free

learning from web-based learning materials and online tutor support.

Assessment Plan

	Learning Outcomes Assessed
Component 1	1,2,3
