

MODULE DESCRIPTOR

Module Title

Security Incident Event Management

| | | | |
|-----------|-------------|-------------|---------|
| Reference | CM4127 | Version | 3 |
| Created | April 2023 | SCQF Level | SCQF 10 |
| Approved | June 2021 | SCQF Points | 15 |
| Amended | August 2023 | ECTS Points | 7.5 |

Aims of Module

To provide students with the technical knowledge and understanding of cyber security event management systems. To provide students with the management, legal and personnel skills to deal with and document a cyber security incident.

Learning Outcomes for Module

On completion of this module, students are expected to be able to:

- 1 Select a suitable security incident management system and implement it on a small network.
- 2 Identify and explain key incident events reported by the management system.
- 3 Analyse and respond appropriately to cyber security incidents.
- 4 Document and report on cyber security incidents.
- 5 Apply remediation techniques to resolve the cyber security incident.

Indicative Module Content

SIEM - Security Incident Event Management. Alien Vault OSSIM disaster recovery, crisis management, legal/business, team management. GDPR, Computer Misuse act, ISO27001. Data collection. Reporting and Analysis. Threat Response.

Module Delivery

This module is taught using a structured programme of lectures, lab sessions, web?based learning materials, webbased activities, practical exercises and student centred learning.

Indicative Student Workload

| | Full Time | Part Time |
|--|-----------|-----------|
| Contact Hours | 30 | N/A |
| Non-Contact Hours | 120 | N/A |
| Placement/Work-Based Learning Experience [Notional] Hours | N/A | N/A |
| TOTAL | 150 | N/A |
| <i>Actual Placement hours for professional, statutory or regulatory body</i> | | |

ASSESSMENT PLAN

If a major/minor model is used and box is ticked, % weightings below are indicative only.

Component 1

| | | | | | |
|--------------|--|------------|------|--------------------|---------------|
| Type: | Coursework | Weighting: | 100% | Outcomes Assessed: | 1, 2, 3, 4, 5 |
| Description: | Coursework producing a technical report which documents the implementation and analysis of an SIEM solution. | | | | |

MODULE PERFORMANCE DESCRIPTOR**Explanatory Text**

The calculation of the overall grade for this module is based on 100% weighting of component 1 (C1). An overall minimum grade of D is required to pass this module.

| Module Grade | Minimum Requirements to achieve Module Grade: |
|--------------|--|
| A | The student needs to achieve an A in C1. |
| B | The student needs to achieve a B in C1. |
| C | The student needs to achieve a C in C1. |
| D | The student needs to achieve a D in C1. |
| E | The student needs to achieve an E in C1. |
| F | The student needs to achieve an F in C1. |
| NS | Non-submission of work by published deadline or non-attendance for examination |

Module Requirements

| | |
|--------------------------|-------|
| Prerequisites for Module | None. |
| Corequisites for module | None. |
| Precluded Modules | None. |
