

MODULE DESCRIPTOR

Module Title

Environmental Engineering 1

Reference	EN3590	Version	6
Created	April 2022	SCQF Level	SCQF 9
Approved	March 2004	SCQF Points	15
Amended	May 2022	ECTS Points	7.5

Aims of Module

To provide the student with an appreciation of factors that contribute to water pollution and the means through which it can be controlled.

Learning Outcomes for Module

On completion of this module, students are expected to be able to:

- 1 Recognise and discuss industry's legal requirements in terms of wastewater pollutants within the UK and Europe.
- 2 Describe effluent discharge and dispersion in terms of fluid dynamics.
- 3 Describe methods of water pollution control, including process selection, recycling, and ultimate disposal of residual wastes.
- 4 Select methods for controlling water pollution for specific industrial applications.

Indicative Module Content

Water pollution control legislation: clean water act. Effluent discharge. Water pollution control: wastewater treatment, water reuse, ultimate disposal. Process selection and installation design.

Module Delivery

Full-time students: This module is delivered by a combination of lectures and tutorials. It will be supported by practical examples and activities including computer based laboratory exercises. Part-time students: This module is delivered by a combination of lectures and tutorials online. It will be supported by drop-in evening sessions and labs on campus. Assessments will primarily be online although exams will be held on campus with the full-time cohorts.

Indicative Student Workload

	Full Time	Part Time
Contact Hours	45	45
Non-Contact Hours	105	105
Placement/Work-Based Learning Experience [Notional] Hours	N/A	N/A
TOTAL	150	150
Actual Placement hours for professional, statutory or regulatory body		

ASSESSMENT PLAN

If a major/minor model is used and box is ticked, % weightings below are indicative only.

Component 1

Type:	Coursework	Weighting:	30%	Outcomes Assessed:	1
Description:	Report.				

Component 2

Type:	Examination	Weighting:	70%	Outcomes Assessed:	2, 3, 4
Description:	Closed book examination.				

MODULE PERFORMANCE DESCRIPTOR**Explanatory Text**

The module has 2 components and to gain an overall pass a minimum D grade must be achieved in each component. The component weighting is as follows: C1 is worth 30% and C2 is worth 70%.

		Coursework:						
		A	B	C	D	E	F	NS
Examination:	A	A	A	B	B	E	E	
	B	B	B	B	C	E	E	
	C	B	C	C	C	E	E	
	D	C	C	D	D	E	E	
	E	E	E	E	E	E	F	
	F	F	F	F	F	F	F	
	NS	Non-submission of work by published deadline or non-attendance for examination						

Module Requirements

Prerequisites for Module	Mathematics 2 (CM2901) and Thermofluids 2 (EN2702) or their equivalent.
Corequisites for module	None.
Precluded Modules	None.
