MODULE DESCRIPTOR

Module Title

Radiographic Clinical Practice 2				
Reference	HS1099	Version	3	
Created	January 2019	SCQF Level	SCQF 7	
Approved	July 2017	SCQF Points	30	
Amended	February 2020	ECTS Points	15	

Aims of Module

To enable the student to develop imaging practice skills and professional conduct skills within a clinical setting.

Learning Outcomes for Module

On completion of this module, students are expected to be able to:

- 1 Demonstrate appropriate imaging in a range of examinations in the clinical work environment under clinical supervision.
- 2 Use safe working practices within the diagnostic radiography setting.
- 3 Describe effective patient care, communication and professional conduct in radiography in a range of examinations.

Indicative Module Content

This practice based module will include experiential learning involving supervised practice; linking theory with practice and developing clinical and professional skills through reflection and discussion. It is a progression of radiographic skills acquired from HS1098 Radiographic Clinical Practice 1. The clinical placement will start with observation of clinical practice followed by supervised practice of imaging. Under supervision, the student will undertake a range of appropriate radiographic procedures, building on previous clinical placement, demonstrating an appropriate level of care and communication before, during and after the intervention. The student will also have opportunities to self-assess radiographic skills and to plan and organise involvement in the department. Attendance at appropriate clinical meetings will be encouraged. The student will be given the opportunity to reflect on and discuss his/her progress and to explore personal strengths and to implement strategies to overcome weaknesses.

Module Delivery

This is a practice based module with supportive input from academic staff. Each student will undertake 37.5 hours per week in the student's place of work clinical imaging department for a period of 9 weeks. This will equate to 337.5 contact hours.

	Module Ref:	HS1099	9 v3
Indicative Student Workload		Full Time	Part Time
Contact Hours		N/A	N/A
Non-Contact Hours		10	N/A
Placement/Work-Based Learning Experience [Notional] Hours		290	N/A
TOTAL		300	N/A
Actual Placement hours for professional, statutory or regulatory body		337	

ASSESSMENT PLAN

If a major/minor model is used and box is ticked, % weightings below are indicative only.

Component 1				
Type: Practical Exam Weighting: 50% Outcomes Assessed:	1, 2			
Description: Continous clinical assessment	Continous clinical assessment			
Component 2				
Type:CourseworkWeighting:50%Outcomes Assessed:	3			
Description: Practice Based Essay				

MODULE PERFORMANCE DESCRIPTOR

Explanatory Text

The module is assessed by a continuous clinical assessment which is graded on a pass/fail basis and a written piece of coursework which is graded on an A-F basis.

Module Grade	Minimum Requirements to achieve Module Grade:
Α	A in coursework and pass in continous clinical assessment.
В	B in coursework and pass in continous clinical assessment.
С	C in coursework and pass in continous clinical assessment.
D	D in coursework and pass in continous clinical assessment.
E	E in coursework and pass in continous clinical assessment.
F	F in coursework or fail in continous clinical assesment.
NS	Non-submission of work by published deadline or non-attendance for examination

Module Requirements	
Prerequisites for Module	None, in addition to course entry requirements.
Corequisites for module	HS1098 Radiographic Clinical Practice 1
Precluded Modules	None.
