#### **ASSESSMENT PLAN**

If a major/minor model is used and box is ticked, % weightings below are indicative only.

# **Component 1**

Type: Coursework Weighting: 100% Outcomes Assessed: 1, 2, 3, 4

Description: Poster defence

### MODULE PERFORMANCE DESCRIPTOR

# **Explanatory Text**

One component of assessment. Grade gained from assessment will determine overall module grade.

| Module Grade | Minimum Requirements to achieve Module Grade:                                  |  |
|--------------|--------------------------------------------------------------------------------|--|
| Α            | A                                                                              |  |
| В            | В                                                                              |  |
| С            | С                                                                              |  |
| D            | D                                                                              |  |
| E            | E                                                                              |  |
| F            | F                                                                              |  |
| NS           | Non-submission of work by published deadline or non-attendance for examination |  |

# **Module Requirements**

Prerequisites for Module None in addition to course entry requirements.

Corequisites for module None.

Precluded Modules None.
