

## MODULE DESCRIPTOR

### Module Title

Developing Concepts of Public Health in Paramedic Practice

Reference	NU2403	Version	2
Created	September 2024	SCQF Level	SCQF 8
Approved	May 2020	SCQF Points	30
Amended	December 2024	ECTS Points	15

### Aims of Module

To enable the student to apply knowledge, understanding and skills in relation to the factors that influence health, health improvement and service delivery.

### Learning Outcomes for Module

On completion of this module, students are expected to be able to:

- 1 Apply the role of evidence-based practice in public health.
- 2 Examine relevant local, national and global health policy and drivers in relation to health inequalities, poverty, vulnerability and social exclusion.
- 3 Explore the fundamental concepts of health promotion theories.
- 4 Discuss health informatics and economics related to paramedic practice.
- 5 Explore key public health priorities and potential interventions recognising the impact of the paramedic role in influencing behaviour.
