Prerequisites for Module

Successful completion of Stage 3 or equivalent.

Corequisite Modules

None.

Precluded Modules

None.

Aims of Module

To enable the student to critically reflect and analyse the interagency and inter-professional processes that promote and hinder integrated health and social care delivery to service users

Learning Outcomes for Module

Indicative Student Workload

Contact Hours

Lectures, tutorials, workshops

Full Time

30

Directed Study

Online learning activities, directed reading

40

Private Study

80

Mode of Delivery

Lectures, seminars, workshops, online learning activities, directed reading.

Assessment Plan

	Learning Outcomes Assessed
Component 1	1,2,3,4,5

Component 1: A written evaluation.

Indicative Bibliography

1. BARRETT, G. *et al.*, 2005. *Interprofessional working in health and social care: professional perspectives*. London: Palgrave.

On completion of this module, students are expected to be able to:

- 1.Examine and evaluate integrated health and social care delivery in the context of current relevant policies.
- 2.Evaluate the characteristics of effective leadership and interprofessional working to inform personal and professional development.
- 3.Analyse the processes which impact on integrated health and social care working
- 4.Appraise own application of the principles of interagency and interprofessional working in order to promote integrated health and social care in practice.
- 5.Evaluate the attributes required of a competent professional practitioner to provide transformative care
