

This Module Version is not active until 01/Sep/2023

MODULE DESCRIPTOR

Module Title

Clinical Therapeutics 2

Reference	PL3003	Version	1
Created	April 2022	SCQF Level	SCQF 9
Approved	June 2022	SCQF Points	30
Amended	August 2019	ECTS Points	15

Aims of Module

To integrate and apply the knowledge, skills and attitudes necessary to implement evidence-based therapeutics and the integration of these into therapeutic plans for individual patients.

Learning Outcomes for Module

On completion of this module, students are expected to be able to:

- 1 Critically evaluate the pathophysiology, pharmacology and evidence-based therapeutics of commonly occurring disease states.
- 2 Synthesise appropriate therapeutic strategies in relation to a range of diseases
- 3 Justify effective drug and non-drug interventions for improving the health of patients and clients.
- 4 Consult effectively to gather relevant information from patients to develop patient centred health outcomes.

Indicative Module Content

Integration of the scientific principles and clinical skills required to develop evidence based therapeutic plans for individual patients. Topics include: differentiation between minor illness and major disease including gastrointestinal and respiratory systems, skin, acute pain, womens' health, child health, eyes and ear, sexual health.

Module Delivery

This module is delivered with a mix of lectures and case study-based tutorials and practical lab sessions, supplemented by formative self-assessment.

Indicative Student Workload

	Full Time	Part Time
Contact Hours	60	N/A
Non-Contact Hours	240	N/A
Placement/Work-Based Learning Experience [Notional] Hours	N/A	N/A
TOTAL	300	N/A
<i>Actual Placement hours for professional, statutory or regulatory body</i>		

ASSESSMENT PLAN

If a major/minor model is used and box is ticked, % weightings below are indicative only.

Component 1

Type: Practical Exam Weighting: 100% Outcomes Assessed: 1, 2, 3, 4
 Description: An objective structured clinical examination.

MODULE PERFORMANCE DESCRIPTOR**Explanatory Text**

To pass this module, the student must achieve a PASS in the Objective Structured Clinical Examination (OSCE).

Module Grade	Minimum Requirements to achieve Module Grade:
Pass	A pass in the OSCE.
Fail	An unsuccessful attempt at the OSCE.
NS	Non-submission of work by published deadline or non-attendance for examination

Module Requirements

Prerequisites for Module	Successful completion of MPharm Stage 2 or equivalent.
Corequisites for module	None.
Precluded Modules	None.
