Aims of Module

To provide practice experiences, which will enable the student to demonstrate competence in the SSSC requirements contained in the Standards in Social Work Education document in a manner appropriate for a level 3

Where a student's practice learning is undertaken in a child care setting they will draw from theory, practice and research of the subject matter and meet the expectations and knowledge requirement of Key Capabilities in Child Care and Protection (Scottish Executive, 2006). Where the student does not undertake their practice learning in a child care setting, Key Capabilities may not underpin the focus of student learning and may not make a contribution to the learning outcomes for the student within this module, other than the need to meet the relevant Key Requirement.
