MODULE DESCRIPTOR					
Module Title					
Surveying Methods					
Reference	SU1005	Version	8		
Created	May 2017	SCQF Level	SCQF 7		
Approved	August 2002	SCQF Points	15		
Amended	September 2017	ECTS Points	7.5		

Aims of Module

To provide an introduction to and an understanding of the principles and procedures used in surveying.

Learning Outcomes for Module

On completion of this module, students are expected to be able to:

- 1 Explain the basic surveying terms used in current practice for land surveying.
- 2 Undertake a small linear survey, including contour determination.
- 3 Solve practical levelling exercises, which results in accurate area and volume calculation.
- 4 Record building survey data and produce a scaled drawing.

Indicative Module Content

The module introduces students to the principles and practice of land surveying and measured building surveys. It includes basic mathematical skills of geometry and trigonometry taught in the context of area and volume calculations.

Module Delivery

This module is extensively based upon student centred research and practical surveying problem solving activities. There will be "mini" lectures followed by student centred learning tasks involving both individual and team working.

Indicative Student Workload	Full Time	Part Time
Contact Hours	38	N/A
Non-Contact Hours	112	N/A
Placement/Work-Based Learning Experience [Notional] Hours		N/A
TOTAL	150	N/A
Actual Placement hours for professional, statutory or regulatory body		

Module Ref: SU1005 v8

ASSESSMENT PLAN

If a major/minor model is used and box is ticked, % weightings below are indicative only.

Component 1

Type: Practical Exam Weighting: 65% Outcomes Assessed: 1, 2, 3

Description: The course work will be a practical relating to a small linear survey to include a scale plot with a

grid of levels and contours.

Component 2

Type: Coursework Weighting: 35% Outcomes Assessed: 4

Description: This will take the form of a measured building survey.

MODULE PERFORMANCE DESCRIPTOR

Explanatory Text

In order to pass the module students must achieve 35% or greater in each component and 40% or greater overall.

Module Grade	Minimum Requirements to achieve Module Grade:	
Α	70% or better	
В	60% or better	
С	50% or better	
D	40% or better	
E	35% or better	
F	Less than 35%	
NS	Non-submission of work by published deadline or non-attendance for examination	

Module Requirements

Prerequisites for Module None, in addition to course entry requirements.

Corequisites for module None.

Precluded Modules None.

ADDITIONAL NOTES

Where appropriate, mixed discipline team working will be encouraged.
