

## MODULE DESCRIPTOR

### Module Title

Industrial Placement			
Reference	SU3503	Version	2
Created	March 2024	SCQF Level	SCQF 9
Approved	January 2024	SCQF Points	60
Amended	July 2024	ECTS Points	30

### Aims of Module

To enable the student to work in a practical environment, to consolidate and broaden their knowledge gained in academic studies.

### Learning Outcomes for Module

On completion of this module, students are expected to be able to:

- 1 Demonstrate the necessary professional skills in their respective discipline.
- 2 Review their own strengths and weaknesses as a potential professional person.
- 3 Assess the structure and the function of the organisation in which they are placed and critically evaluate the factors which affect its performance.
- 4 Review the theories, skills, models, concepts and principles acquired in their studies to date in the workplace.

### Indicative Module Content

The content of the industrial placement will vary. However, each student will draw up an agreed learning contract with the host organisation and devise a programme which will enable the learning outcomes to be achieved. For professional and practical reasons students are expected to complete a minimum of 600 hours during their industrial placement.

### Module Delivery

Delivery is by means of supervised on-the-job training. In addition, students may be required to attend staff development workshops as designated by the host organisation.

**Indicative Student Workload**

	Full Time	Part Time
Contact Hours	N/A	N/A
