

MODULE DESCRIPTOR

Module Title

Capstone Project: Research And Design

Reference	CBM005	Version	1
Created	April 2024	SCQF Level	SCQF 11
Approved	January 2024	SCQF Points	30
Amended		ECTS Points	15

Aims of Module

The module enables students to apply subject knowledge, project planning and data analysis techniques in the research, design and scoping of an independent research or applied, work-based project.

Learning Outcomes for Module

On completion of this module, students are expected to be able to:

- 1 Identify a relevant and feasible project and plan for the purposes of conducting an approved work-related or academic project.
- 2 Critically evaluate relevant theory and knowledge of utility to professional and academic practice, relating to the objectives of the project.
- 3 Define the scope, timeline and deliverables for the agreed project.
- 4 Design feasible and appropriate methods, tools and techniques for conducting a specific project.
- 5 Demonstrate project management skills at an appropriate level, developing a critical understanding of the legal and ethical considerations in the collection and management of data.

Indicative Module Content

Identifying and selecting ideas in order to form a feasible project in a specific academic/professional context; defining overall project aim and objectives; deciding on project outcomes/outputs; understanding risks and planning mitigation and contingency; strategic project planning and organisation (e.g. time and task management, costing); searching for academic/professional literature and managing references; reviewing methodologies and principles; selecting project approach and justifying rationale; presenting a project proposal. The module engages students with UNESCO's Education for Sustainable Development Strategic and Collaboration competencies where students develop and implement innovative actions and engage with a specific problem.

Module Delivery

The module will be delivered via guided supervision, workshops, online resources and online exercises.

Indicative Student Workload

	Full Time	Part Time
Contact Hours	12	12
Non-Contact Hours	288	288
Placement/Work-Based Learning Experience [Notional] Hours	N/A	N/A
TOTAL	300	300
<i>Actual Placement hours for professional, statutory or regulatory body</i>		

ASSESSMENT PLAN

If a major/minor model is used and box is ticked, % weightings below are indicative only.

Component 1

Type:	Coursework	Weighting:	100%	Outcomes Assessed:	1, 2, 3, 4, 5
Description:	Students will present a written assessment based on their chosen project				

MODULE PERFORMANCE DESCRIPTOR**Explanatory Text**

The calculation of the overall grade for this module is based on 100% weighting of C1. An overall minimum grade D is required to pass the module.

Module Grade	Minimum Requirements to achieve Module Grade:
A	The student needs to achieve an A in C1.
B	The student needs to achieve a B in C1.
C	The student needs to achieve a C in C1.
D	The student needs to achieve a D in C1.
E	The student needs to achieve an E in C1.
F	The student needs to achieve an F in C1.
NS	Non-submission of work by published deadline or non-attendance for examination

Module Requirements

Prerequisites for Module	None.
Corequisites for module	None.
Precluded Modules	None.
