

MODULE DESCRIPTOR

Module Title

Energy L	₋aw	And	Pol	icv
----------	-----	-----	-----	-----

- 5,			
Reference	LLM695	Version	2
Created	August 2023	SCQF Level	SCQF 11
Approved	September 2018	SCQF Points	15
Amended	August 2023	ECTS Points	7.5

Aims of Module

To develop the student?s knowledge and understanding of the principal legal and regulatory concepts and arrangements at the UK, EU and international levels; and the relationship between energy and the environment, sustainable development, climate change law and policy.

Learning Outcomes for Module

On completion of this module, students are expected to be able to:

- 1 Critically appraise and discuss the structure of the energy sector legal and regulatory matrix.
- 2 Recognise, discuss & justify the main legal & policy developments in energy sector.
- 3 Critically evaluate the effect of these developments on the energy sector.

Indicative Module Content

An overview and general understanding will be given of: 1. Principal legal and regulatory arrangements at the UK, EU and international level; 2. The roles of the stakeholders and key players in the energy industry; 3. The relationship between energy, environment, sustainable development, climate change law and policy; 4. The key current legal and regulatory frameworks for the energy sub- sectors; and 5. The international agenda on energy issues.

Module Delivery

This module is based on lecture notes, other recommended reading and problem exercises available on the module's Moodle page and through face-to-face class sessions.

Module Ref: LLM695 v2

Indicative Student Workload	Full Time	Part Time
Contact Hours	30	10
Non-Contact Hours	120	140
Placement/Work-Based Learning Experience [Notional] Hours		N/A
TOTAL	150	150
Actual Placement hours for professional, statutory or regulatory body		

ASSESSMENT PLAN

If a major/minor model is used and box is ticked, % weightings below are indicative only.

Component 1

Type: Coursework Weighting: 100% Outcomes Assessed: 1, 2, 3

Description: Coursework assignment for 100%.

MODULE PERFORMANCE DESCRIPTOR

Explanatory Text

The module is assessed by way of a single assessment component weighted at 100%. A minimum grade D is required in order to pass the module.

Module Grade	Minimum Requirements to achieve Module Grade:	
Α	A	
В	В	
С	С	
D	D	
E	E	
F	F	
NS	Non-submission of work by published deadline or non-attendance for examination	

Module RequirementsPrerequisites for ModuleNone.Corequisites for moduleNone.Precluded ModulesNone.
