### Aims of Module

To enable the students to develop independence in meeting Nursing and Midwifery Council (NMC) standards of proficiency by demonstrating safe, family-centred midwifery care through guided participation.

### Learning Outcomes for Module

On completion of this module, students are expected to be able to:

- 1 Assess the physical, psychological, emotional, social and cultural needs of the woman, the neonate and the family throughout the childbirth continuum with guidance from Practice Supervisor(s).
- 2 Demonstrate safe, respectful, compassionate and effective midwifery practice, as identified within the Midwifery Practice Assessment Documentation (MPAD), to meet progression criteria for entry to Part 3 of the programme.
- 3 Apply a strengths-based approach, which empowers mothers and families by recognising and respecting their choices when developing plans of care.
- 4 Collaborate with the multi-disciplinary team using effective communication to address complex needs.
- 5 Explain appropriate referral to specialist and third sector services.

### Indicative Module Content

Preparation for practice; The NMC proficiencies for part 2 which are grouped under six domains: (1) Being an accountable, autonomous, professional midwife; (2) Safe and effective midwifery care: promoting and providing continuity of care and carer; (3) Universal care for all women and newborn infants; (4) Additional care for women and newborn infants with complications; (5) Promoting excellence: the midwife as colleague, scholar and leader; (6) The midwife as skilled practitioner.
