

MODULE DESCRIPTOR

Module Title

Construction Project Management

Reference	SU1052	Version	3
Created	April 2023	SCQF Level	SCQF 7
Approved	July 2018	SCQF Points	30
Amended	June 2023	ECTS Points	15

Aims of Module

The module will provide an introduction to the principles of construction project management and discuss techniques and processes necessary to manage a project to cost, time, quality, safety and environmental requirements.

Learning Outcomes for Module

On completion of this module, students are expected to be able to:

Recognise the systematic management of the construction processes as they relate to a project from

- 1 inception to completion, applying industry standards processes, methods, techniques and tools to procure and execute projects.
- ² Describe the fundamental knowledge and principles of the commercial, economic and global context in which projects are undertaken.
- ³ Identify the role of the construction manager in leading the construction project team including defining the roles and responsibilities and successfully managing client expectations.
- ⁴ Identify the nature of risks associated with initiating and implementing a construction project and the methods and techniques used to measure and manage risk.
- 5 Recognise the core contents of the module and examine their application within the work place.

Indicative Module Content

Construction processes and project stages, including demolition and recycling. Value management and value engineering, procurement and commercial considerations. Construction team, role, responsibilities and stakeholder management, considerte construction, social value, risk identification and risk management.

Module Delivery

The module is delivered in Blended Learning mode using structured online learning materials/activities and directed study, facilitated by regular online tutor support. Workplace Mentor support and work-based learning activities will allow students to contextualise this learning to their own workplace. Face-to-face engagement occurs through annual induction sessions, employer work-site visits, and modular on-campus workshops.

	Module Ref:	SU1052	v3
Indicative Student Workload		Full Time	Part Time
Contact Hours		30	N/A
Non-Contact Hours		30	N/A
Placement/Work-Based Learning Experience [Notional] Hours		240	N/A
TOTAL		300	N/A
Actual Placement hours for professional, statutory or regulatory body		240	

ASSESSMENT PLAN

If a major/minor model is used and box is ticked, % weightings below are indicative only.

Component 1

Туре:	Coursework	Weighting:	100%	Outcomes Assessed:	1, 2, 3, 4, 5
Description:	An integrated assignm application of the mod throughout the module	nent consisting of illu lule learning outcom e weeks that involve	strated writ es and refle s theory and	ten work to demonstrate unders acting on the learning developm d practice.	tanding and ent

MODULE PERFORMANCE DESCRIPTOR

Explanatory Text

The overall module grade is based on 100% weighting of Component 1 (assignment). An overall minimum grade D is required to pass the module. Non-submission will result in an NS grade.

Module Grade	Minimum Requirements to achieve Module Grade:
Α	A
В	В
С	C
D	D
E	E
F	F
NS	Non-submission of work by published deadline or non-attendance for examination

Module Requirements	
Prerequisites for Module	None.
Corequisites for module	None.
Precluded Modules	None.
